

## Commercial Analyst

**Passionate about renewable energy, solving big problems, working with an entrepreneurial team, and growing your career?**

Tyr Energy Development Renewables, LLC is an experienced team focused on developing and commercializing large-scale renewable energy projects including solar and energy storage. Our work has a direct impact on reducing carbon emissions while yielding positive results to the bottom line. We can't do it alone, so we are seeking to hire a Commercial Analyst to help support our rapid growth. This position will be office-based at our headquarters in Overland Park, KS.

The Commercial Analyst will support the marketing and economic analysis for our solar and storage development projects across the US. This position will also work on several project finance and M&A transactions each year. The Commercial Analyst will be a key member of our commercial team and support both Origination and Finance functions within the team. We believe in mentoring and coaching our people so come advance your career with a fun, dynamic, and supportive team.

### **Duties and responsibilities:**

- Support financial modeling of solar and energy storage development opportunities.
- Help with marketing and structuring of Power Purchase Agreements with potential offtake customers.
- Assist with project financing and M&A transactions with 3<sup>rd</sup> party investors, lenders and/or tax equity providers.
- Collaborate effectively with the Development, EPC, and Interconnection teams.
- Provide strategic economic and renewable energy market analysis as needed.

### **What you will learn:**

- How energy markets are organized across the US and how renewable energy fits into those markets, how to be competitive, and identify barriers to entry.
- Financial modeling intricacies which will help you understand where value is created with new solar, storage, and possibly hydrogen projects.
- The decision-making process behind why companies are procuring renewable energy.
- How contracts are negotiated to sell power and to sell projects.
- How to work with a team of fun, smart subject matter experts and contribute to the expansion of clean energy technology.

### **Qualifications/Requirements:**

- Bachelor's or graduate degree with a focus in finance, accounting, economics, engineering or another quantitative field.
- Basic understanding of financial concepts and project valuation (DCF modeling).
- Professional presence and strong communication skills
- Eagerness to learn the renewable energy markets and key drivers (e.g., policies, technologies, dynamics in local markets), especially for solar and storage.
- Ability to succeed in a fast-paced, entrepreneurial office environment

### **About Tyr Energy Development Renewables, LLC**

Tyr Energy Development Renewables, LLC ('TED Renewables') is a wholly owned affiliate of Tyr Energy. Tyr Energy represents the North American cornerstone of the ITOCHU Corporation global electric power strategy, focused on clean and renewable generation and technology solutions.

TED Renewables is active in the development and commercialization of renewable electric power facilities. Through ITOCHU affiliates we provide comprehensive management and oversight services to power generation and electric utility companies.
