

## **Senior Manager – Finance**

**Passionate about solving big problems, working with an entrepreneurial team, and growing your career?**

Tyr Energy Development Renewables, LLC (“TED Renewables”) is an experienced team focused on developing and commercializing large-scale renewable energy projects including solar, storage, and other emerging technologies (e.g. green hydrogen). Our work has a direct impact on reducing carbon emissions while yielding positive results to the bottom line. We can’t do it alone, so we are seeking to hire a Senior Manager in the Finance team to help support our rapid growth. There is a strong preference for this position to be located at our headquarters in Overland Park, KS, but we are open to other location preferences for exceptional candidates.

The Senior Manager will support the financial analysis and modeling for our solar and storage development projects across the US. This position will also work on several project finance and M&A transactions each year. The Senior Manager will be a key member of our commercial team and work directly with senior management. We believe in mentoring and coaching our people so come advance your career with a fun, dynamic, and supportive team with deep industry expertise.

### **Working at TED Renewables:**

TED Renewables is a highly collaborative team that has a work hard, play hard culture. If you like to have clear objectives and feel supported with resources and tools to do your job, then TED Renewables is a place you will love. New ideas are welcome and encouraged at TED. We are constantly striving to find ways to improve our business to ultimately achieve our goal of developing world class renewable energy projects. TED also enjoys the benefit of being a wholly owned subsidiary of ITOCHU Corporation, a Global Fortune 100 company, which is fully committed to growing the TED Renewables business. In short, at TED you will have fun, learn a lot, solve meaningful problems, and have an impact.

### **Duties and responsibilities:**

- Lead financial modeling of solar and energy storage development opportunities.
- Structuring of Power Purchase Agreements with potential offtake customers.
- Assist with project financing and M&A transactions with 3<sup>rd</sup> party investors, lenders and/or tax equity providers.
- Collaborate effectively with the Development, EPC, and Transmission teams.
- Provide strategic financial and renewable energy market analysis as needed.

### **Qualifications/Requirements:**

- At least five (5) years of work experience supporting the renewable energy industry in a financial modeling or valuation role. Previous experience working for a leading IPP, utility, renewable developer, accounting firm or investment bank a plus.
- Bachelor's or graduate degree with a focus in finance, economics, or another quantitative field.
- Thorough understanding of financial concepts and project valuation (DCF modeling).
- Professional presence and strong communication skills
- Current knowledge of renewable energy markets and key drivers (e.g., policies, technologies, dynamics in local markets), especially for solar and storage.
- Ability to succeed in a fast-paced, entrepreneurial office environment.

### **About Tyr Energy Development Renewables, LLC**

TED Renewables is a wholly owned affiliate of Tyr Energy. Tyr Energy represents the North American cornerstone of the ITOCHU Corporation global electric power strategy, focused on clean and renewable generation and technology solutions.

TED Renewables is active in the development and commercialization of renewable electric power facilities. Through ITOCHU affiliates we provide comprehensive management and oversight services to power generation and electric utility companies.

### **Interested Candidates**
